NEW PRESUMPTIVE ELIGIBILITY MEDICAL COVERAGE FOR ADULTS

Due to the large number of Medi-Cal applications received through the Covered California website at www.coveredca.com, the Department of Health Care Services (DHCS) will provide temporary Medi-Cal eligibility for many individuals and families while their applications are being verified. Starting January 1, 2014, the temporary coverage called presumptive eligibility, allows adults to receive Medi-Cal coverage under the 8E Accelerated Enrollment aid code while their applications are being verified. With presumptive eligibility, only qualified applicants will receive temporary, no share of cost Medi-Cal benefits while their applications are being finalized.

Please note, as of January 7, 2014, the restriction on the 8E aid code that causes claims to be denied for the beneficiaries aged 19 or older has been removed. This is effective for dates of service on or after January 1, 2014.

We're here to help you...
